the white masai daughter now: Great Expectations Jonathan Skinner, Dimitrios Theodossopoulos, 2011-10-01 The negotiation of expectations in tourism is a complex and dynamic process - one that is central to the imagination of cultural difference. Expectations not only affect the lives and experiences of tourists, but also their hosts, and play an important part in the success or failure of the overall tourism experience. It is for this reason, the authors argue, that special attention should be given to how expectations constitute and sustain tourism. The case studies presented here explore what fuels the desires to visit particular places, to what degree expectations inform the experience of the place, and the frequent disjunctions between tourist expectations and experiences. Careful attention is paid to how the imagination of the visitor inspires the imagination of the host, and vice-versa; how tourists and host communities actively imagine, re-imagine, and

shape each other's lives. This realization, has profound consequences, not solely for academic analysis, but for all those who participate in and work within the tourism industry.

the white masai daughter now: Ethno-erotic Economies George Paul Meiu, 2017-10-10 In *Ethno-Erotic Economies*, anthropologist George Paul Meiu looks at how fantasies of sexual difference create what we think of as ethnicity in a globalized world. Meiu draws back the curtain on a fascinating case of sexual tourism in Coastal Kenya in which young men deploy stereotypes of African warriors to establish transactional sexual relationships with foreign women. Meiu's deep familiarity with Samburu culture allowed him to explore the long-term effects of the sex trade on things like intimate affiliations, kinship, ritual, gender, and age in rural Kenya. What happens to communities when wealth becomes concentrated in the hands of its young men? How do these men seek to convert fast money into traditional, lasting forms of prestige to become elders and thus secure higher moral and social standing? And, crucially, how do others not privy to the sexual encounters themselves understand the circulation of new money? Meiu's exceptional skills as an ethnographer yield riveting testimonies from all quarters of Samburu society, resulting in a compelling look at how intimacy and ethnicity come together to shape the pathways of global and local trade in the postcolonial world.
