The Last Light hub page on the Wanderer's Library website describes different types of inhabitants, groups, and factions that exist within the universe of Last Light. None of the specific inhabitants, groups, and factions listed on said hub page will be included in this book. This is an illustrated guidebook of creatures from the world of Last Light. All of the creatures covered in this book are either directly from the first two canonical texts of Last Light (Slipstream Line by ProgressMade and The Second Ark by Egileye), or inspired by said texts. Each creature in this book includes an associated name, artwork, and general description. Many of the creatures from the first two canonical texts aren't given a specific name, so the author of this book takes the artistic liberty of giving said creatures names. Some of the creatures in this book simply take inspiration from the first two canonical texts of Last Light and are not actually from said texts. All of the art in this book was created using artificial intelligence and is created using a colorful, photorealistic, painted style.
