The test typically consists of multiple-choice questions that require students to analyze historical documents, interpret data, and apply their knowledge of U.S. history.

Structure of the Test

The STAAR U.S. History test is a single-day assessment, generally administered to students in the 11th grade. It consists of approximately 50 to 60 questions covering a range of historical periods and themes. The questions are designed to evaluate students on their ability to:

- Analyze and interpret primary and secondary sources
- Understand historical events and their significance

- Make connections between past and present

Each question often includes a scenario or a historical document, requiring students to apply their knowledge in context. Familiarity with the types of questions and the test's structure can greatly enhance a student's ability to navigate the exam effectively.
