thriftbooks textbooks: The Secrets of Immortality Prof. Dr. Ernst von Schwarz, 2023-08-01 In view of progressive research advances in biotechnology and medicine, the prospect of living longer, increased longevity, increased health span, and even biologic immortality has become more real than ever before. The Secrets of Immortality evaluates humankind's continuous quest for immortality—an integral part of human nature. With hundreds of millions of dollars being spent on anti-aging and immortality research, some futurists believe that within a few decades, man will be able to live up to 150 years, if not more. Some believe that the first person to live up to 1000 years old is already alive today. While this sounds like a premise from science fiction, The Secrets of Immortality describes the current state of biotechnology and medical research data and the possibilities of anti-aging and natural or biologic immortality within the near future. Prof. Dr. Ernst von Schwarz wrote The Secrets of Immortality from a theological point of view, examining everlasting life from the perspective of different religions (with a main emphasis on the Roman Catholic tradition). Dr. Schwarz is a physician, transplant cardiologist, and researcher, but he is also a theologian, offering a unique perspective to longevity and immortality.

thriftbooks textbooks: We Are All Armenian Aram Mrjoian, 2023-03-14 A collection of essays about Armenian identity and belonging in the diaspora. In the century since the Armenian Genocide, Armenian survivors and their descendants have written of a vast range of experiences using storytelling and activism, two important aspects of Armenian culture. Wrestling with questions of

home and self, diasporan Armenian writers bear the burden of repeatedly telling their history, as it remains widely erased and obfuscated. Telling this history requires a tangled balance of contextualizing the past and reporting on the present, of respecting a culture even while feeling lost within it. *We Are All Armenian* brings together established and emerging Armenian authors to reflect on the complications of Armenian ethnic identity today. These personal essays elevate diasporic voices that have been historically silenced inside and outside of their communities, including queer, multiracial, and multiethnic writers. The eighteen contributors to this contemporary anthology explore issues of displacement, assimilation, inheritance, and broader definitions of home. Through engaging creative nonfiction, many of them question what it is to be Armenian enough inside an often unacknowledged community.
