catholic theology textbooks: Called to be the Children of God Carl E. Olson, Fr. David Vincent Meconi, S.J., 2016 This book gathers fourteen Catholic scholars to present, examine, and explain the often misunderstood process of deification. The fifteen chapters show what becoming God meant for the early Church, for St. Thomas Aquinas and the greatest Dominicans, and for St. Francis and the early Franciscans. This book explains how this understanding of salvation played out during the Protestant Reformation and the Council of Trent. It explores the thought of the French School of Spirituality, various Thomists, John Henry Newman, John Paul II, and the Vatican Councils, and it shows where such thinking can be found today in the Catechism of the Catholic Church. No other book has gathered such an array of scholars or provided such a deep study into how humanity's divinized life in Christ has received many rich and various perspectives over the past two thousand years. This book seeks to bring readers into the central mystery of Christianity by allowing the Church's greatest thinkers and texts to speak for themselves, demonstrating how becoming Christ-like and the Body of Christ on earth, is the only ultimate purpose of the Christian faith.

Everybody knows the phrase, and most people tend to complete it according to their own fancy of what is most important to the hungry soul of man. But it had its own completion in Deuteronomy and Our Lord reminded the Devil of that too—“but by every word that proceedeth from the mouth of God.” Revealed truth, then, is food. Now it is a peculiarity of food that it nourishes only those who eat it. We are not nourished by the food that someone else has eaten. To be nourished by it, we must eat it ourselves. catholic theology textbooks: Theology and Sanity Frank Sheed, Catholic Way Publishing, 2019-02-06 THEOLOGY AND SANITY FRANK SHEED — A Catholic Classic! — Includes Linked Headings, Footnotes, Index and Table of Contents — Includes Illustrations by Gustave Dore Publisher: Available in Paperback: ISBN-13: 978-1-78379-499-7 I played with the thought of dedicating this book TO ALL WHO KNOW LESS THEOLOGY THAN I. It would have sounded flippant. But it would have been exact. There are thousands who know more theology than I, and for them I have no message: they must teach me. But there are thousands who know less, and less is not enough: I must try to teach them. This book contains theology, not the great mass of it that theologians need, but the indispensable minimum that every man needs in order that he may be living mentally in the REAL WORLD—which is what the word SANITY means in my title. Sanity, remember, does not mean living in the same world as everyone else; it means living in the real world. But some of the most important elements in the real world can be known only by the revelation of God, which it is theology's business to study. Lacking this knowledge, the mind must live a half-blind life, trying to cope with a reality most of which it does not know is there. This is a wretched state for an immortal spirit, and pretty certain to lead to disaster. There is a good deal of

disaster around at this moment. PUBLISHER: CATHOLIC WAY PUBLISHING

catholic theology textbooks: *Nouvelle Théologie and Sacramental Ontology* Hans Boersma, 2009-05-07 In the decades leading up to the Second Vatican Council, the movement of *nouvelle théologie* caused great controversy in the Catholic Church and remains a subject of vigorous scholarly debate today. In *Nouvelle théologie and Sacramental Ontology* Hans Boersma argues that a return to mystery was the movement's deepest motivation. Countering the modern intellectualism of the neo-Thomist establishment, the *nouvelle* theologians were convinced that a *ressourcement* of the Church Fathers and of medieval theology would point the way to a sacramental reintegration of nature and the supernatural. In the context of the loss suffered by both Catholics and Protestants in the de-sacramentalizing of modernity, Boersma shows how the sacramental ontology of *nouvelle théologie* offers a solid entry-point into ecumenical dialogue. The volume begins by setting the historical context for *nouvelle théologie* with discussions of the influence of significant theologians and philosophers like Möhler, Blondel, Maréchal, and Rousselot. The exposition then moves to the writings of key thinkers of the *ressourcement* movement including de Lubac, Bouillard, Balthasar, Chenu, Daniélou, Charlier, and Congar. Boersma analyses the most characteristic elements of the movement: its reintegration of nature and the supernatural, its reintroduction of the spiritual interpretation of Scripture, its approach to Tradition as organically developing in history, and its communion ecclesiology that regarded the Church as sacrament of Christ. In each of these areas, Boersma demonstrates how the *nouvelle* theologians advocated a return to mystery by means of a sacramental ontology.

catholic theology textbooks: *Systematic Theology* Thomas P. Rausch, 2016 Systematic theology seeks to understand and render more intelligible the central doctrines of faith and to show how they are related to each other. It tries to demonstrate how these doctrines are rooted in Scripture and develop in the history of the church; most important, it strives to more adequately express and sometimes reinterpret the church's doctrinal tradition, always in the interest of better communicating the mystery of salvation and bringing it into a dialogue with culture. The present text is intended to be concise and accessible, an introduction that explores basic themes in Catholic systematic theology from a biblical, historical, and contemporary perspective, always aware of today's theological pluralism.

Galvin, 2011-05-01 Unique among contemporary resources, the landmark *Systematic Theology* and its distinguished contributors present the major areas or loci of Roman Catholic theology in light of contemporary developments—especially the sea change since Vatican II thought, the best new historical studies of traditional doctrines and Scripture, and the diverse creative impulses that come from recent philosophy and hermeneutics, culture and praxis, and ecumenical contacts. This new volume combines and updates both previous volumes, incorporates into the framework nearly twenty years of fresh thought and bibliography in each area, and adds revisions to key articles to take account of a diverse, fluid, and postmodern situation.

catholic theology textbooks: Into All Truth Milton Walsh, 2013 Into All Truth presents the basic beliefs of the Catholic Church, beginning with the Resurrection. That extraordinary event prompted Jesus' followers to reflect on his identity and mission, which in turn led them to see the one God as an eternal communion of Father, Son and Holy Spirit. The Good News of the Catholic Church is that God invites every man and woman into this communion. With extensive use of the Bible, the Catechism of the Catholic Church, and the documents of the Second Vatican Council, Into All Truth explains clearly and succinctly the dogmas of the Catholic Church that flow from her faith in the Trinity. Each dogma is traced back to the faith of the first followers of Jesus, and its development over time is explored. Each chapter also outlines the implications of a given belief. The Resurrection, for example, has as much to say about human destiny as about the ultimate fate of Jesus. This book is intended for the general reader, Catholic and non-Catholic alike. An online study guide is available for use with this book. It is an ideal way for young adults, and older adults as well to deepen their understanding of the Catholic faith.

catholic theology textbooks: The Light of Christ Thomas Joseph White, 2017-09-14 This introduction to Catholicism "combines scholarly depth with an engaging style to present the what and why of Catholic belief with exceptional clarity" (Charles J. Chaput, OFM Cap., Archbishop of Philadelphia). In The Light of Christ, Fr. Thomas Joseph White provides an accessible presentation of Catholic doctrine that is both grounded in traditional theology and engaged with contemporary concerns. Inspired by the theologies of Irenaeus, Thomas Aquinas, and John Henry Newman, Father White covers the major doctrines of the Christian religion including knowledge of God, the mystery of the Trinity, the incarnation and the atonement, the sacraments and the moral life, eschatology and prayer. The Light of Christ also addresses topics such as evolution, the modern historical study of Jesus and the Bible, and objections to Catholic moral teaching. Authoritative yet accessible, this book serves as an excellent introduction for general readers or as a helpful text for theology courses in a university context. "This is a book that offers itself as a companion . . . My goal is to make explicit in a few broad strokes the shape of Catholicism. I hope to outline its inherent intelligibility or form as a mystery that is at once visible and invisible, ancient and contemporary, mystical and reasonable." —Father White, from the Introduction

catholic theology textbooks: Roman Catholic Theology and Practice Gregg R. Allison, 2014-11-30 In this balanced volume, Gregg Allison—an evangelical theologian and church historian—helps readers understand the nuances of Roman Catholic teaching. catholic theology textbooks: Shape of Catholic Theology Aidan Nichols, 2003-08-28 This study is an introduction to Catholic theology designed both for the theological student and for the general reader willing to make a certain effort. After introducing the idea of theology and the virtues desirable in the budding theologian, the bulk of the book falls into the five sections: (1) the role of philosophy in theology; (2) the use of the Bible in theology; (3) the resources of tradition, liturgy and

sacred art; Fathers, Councils and Creeds; the sense of the faithful; (4) two 'aids to discernment in short history of Catholic theology from the New Testament to the present day. The conclusion considers the features of pluralism and unity which should typify Catholic theology as a whole and suggests how unity may avoid becoming uniformity without pluralism becoming anarchy.

catholic theology textbooks: The How-To Book of Catholic Theology Fr. John P. Cush, S.T.D., 2020-08-20 Everyone's a theologian, because everyone believes something about God, even those who reject him. So the question is not whether we have a theology but whether that theology is true. And that's what makes this excellent book by Fr. John Cush so needed and helpful: It guides us in forming a true theology. — Brandon Vogt, author of *Why I Am Catholic* and Content Director at Word on Fire Catholic Ministries Unlike the authors of most theology texts today, Fr.
