Almquist, 2011-09-12 Brought to you by a team of experienced practitioners in the field, this book examines the vast topic of library support for distributed learning, providing both historical and contemporary viewpoints. What is the best way to deliver research resources to students who live off campus—as in, way off campus, in a rural area without a high-speed Internet connection? And where does one find a complete (and accurate) synopsis of copyright guidelines that will prevent well-intentioned librarians from being labeled as the copyright police? The answers to these two questions regarding distributed learning—and many more—are contained in *Distributed Learning and Virtual Librarianship*. Written by practitioners in their field of expertise, this book documents the history of distributed learning and discusses current issues in distributed learning librarianship, with a special focus on the role of technology. Topics covered include virtual libraries, reference assistance, E-reserves and document delivery, administrative and marketing issues, and copyright concerns. This text is valuable to librarians working in public, school, and academic libraries.

penn foster textbooks: Think Big with Think Alouds Molly Ness, 2017-07-13 I'm guessing that those two are planning a surprise. . . . The author keeps mentioning the storm because she wants us to think that the character's upset. . . . Wait—yikes, I gotta go back and reread because I'm not getting this part. . . . These are the flickering thoughts of a strategic reader. If only we could bottle all these mental moves and pour them into the minds of our students, then readers' achievement would grow exponentially. In *Think Big With Think Alouds*, Molly Ness delivers a process that comes close to bottling that magic. Molly spent a year researching teachers' think alouds, and she uses these findings to help you know just what to do. The big time-saver? You focus on just these five strategies: asking questions, making inferences, synthesizing, understanding the author's purpose, and monitoring and clarifying. Select the one or two strategies that align to your text, and get ready with a stack of sticky notes! Grab a pencil, and you are on your way to dynamic lessons using Molly's three-step planning process: Read Once: Go wild, putting a flurry of sticky notes on spots that strike you Read Twice: Whittle your notes down to the juiciest stopping points Read Three Times: Jot down what you will say so there's no need to wing it in front of the kids Other practical tools include More
