textbooks gcert: Gujarat Under Modi Christophe Jaffrelot, 2024-03-01 In 2012 Narendra Modi became the first Hindu nationalist politician thrice elected to lead a state of the Indian Union, his stewardship as Chief Minister of Gujarat being the longest in that state's history. Modi and his BJP supporters explained his achievement by pointing to economic growth under his leadership, yet detractors point out that Modi has been more business-friendly than market-friendly--to the benefit of large industrial corporations, and at the cost of great social polarization. In 2002, an anti-Muslim pogrom of unparalleled ferocity occurred in Gujarat, leading to the biggest number of Muslim deaths since Partition. The state's Hindu majority immediately rallied around Modi. No serious riot has occurred in Gujarat since, but polarization was key to Modi's strategy there, and he has deployed that strategy again and again since he became Prime Minister of India in 2014. For Modi has cultivated a communal image. A marketing genius, his messaging combines the politics of Hindutva with economic modernization, to the clear appreciation of Gujarat's middle class. Christophe Jaffrelot's revealing book shows how Modi's Gujarat served as the laboratory of Modi's India, not only in terms of Hindu majoritarianism and national populism, but also of caste and class politics.

textbooks gcert: Livelihoods and Learning Caroline Dyer, 2014-05-30 Current paradigms of 'development' generally serve mobile pastoralist groups poorly: their visibility in policy processes is minimal, and their mobility is constructed by the powerful as a 'problem', rather than as a rational livelihood strategy. Increasingly damaged eco-systems, shrinking natural resources, globalisation and urbanisation all put pressure on pastoralist livelihoods. Such processes often worsen, rather than alleviate, poverty and socio-economic marginalisation among pastoralists, but they also precipitate engagement with forms of education that may improve their future livelihood security and social status, and enhance occupational diversification. Opening with a discussion of how the relationships between education, poverty and development have been conceived in dominant development discourses, this book reviews the disappointing international experience of education provision to mobile pastoralist groups. It highlights a lack of sufficient flexibility and relevance to changing livelihoods and, more fundamentally, education's conceptual location within a sedentarist paradigm of development that is antagonistic to mobility as a legitimate livelihood strategy. These

global themes are examined in India, where policy and practices of education inclusion for mobile, marginalised groups are critiqued. Empirically-based chapters drawing on ethnographic research, provide detailed insights into how the Rabaris of Kachchh – a pastoralist community in Gujarat, Western India – engage with education as a social and economic development strategy for both adults and children, and show how ethnographic and participatory research approaches can be used for policy advocacy for marginalised groups. *Livelihoods and Learning* highlights the complex, contested and often inconsistent role of education in development and the social construction of poverty, and calls for a critical reappraisal of the notion of 'education'. The book will be key reading for postgraduates and academics in education, development studies, international and comparative education and research methodology, as well as policy-makers, ministries and related agencies with responsibility for education.
