**adult education workbooks: The Handbook of Adult and Continuing Education** Tonette S. Rocco, M. Cecil Smith, Robert C. Mizzi, Lisa R. Merriweather, Joshua D. Hawley, 2020 Co-published with Colleges and universities are increasingly becoming significant sites for adult education scholarship--in large part due to demographic shifts. With fewer U.S. high school graduates on the horizon, higher education institutions will need to attract non-traditional (i.e., older) adult learners to remain viable, both financially and politically. There is a need to develop a better corpus of scholarship on topics as diverse as, what learning theories are useful for understanding adult learning? How are higher education institutions changing in response to the surge of adult students? What academic programs are providing better learning and employment outcomes for adults in college? Adult education scholars can offer much to the policy debates taking place in higher education. The Handbook of Adult and Continuing Education provides rich information on the contemporary issues and trends that are of concern to adult and continuing education, of the programs and resources available to adult learners, and of opportunities to challenge and critique the structures embedded in the field that perpetuate inequity and social injustice. Adult education is a discipline that foresees a better tomorrow, and The Handbook is designed to engage and inspire readers to assist the field to seek new paths in uncertain and complex times, ask questions, and to help the field flourish. The second, Understanding Adult Learning, includes chapters on adult learning, adult development, motivation, access, participation, and support of adult learners, and mentoring. Teaching Practices and Administrative Leadership, the third section, offers chapters on organization and administration, program planning, assessment and evaluation, teaching perspectives, andragogy and pedagogy, public pedagogy, and digital technologies for teaching and learning.
