NATIONAL BESTSELLER The USA TODAY bestselling inaugural winner of Simon & Schuster's Books Like Us contest, Elba Iris Pérez's lyrical and "wonderfully compelling" (Judith Simon Prager, author of *What the Dolphin Said*) cross-cultural coming-of-age debut novel explores a young girl's childhood between 1950s Puerto Rico and a small Massachusetts factory town. Andrea Rodríguez is nine years old when her mother whisks her and her brother, Pablo, away from Woronoco, the tiny Massachusetts factory town that is the only home they've known. With no plan and no money, she leaves them with family in the mountainside villages of Puerto Rico and promises to return. Months later, when Andrea and Pablo are brought back to Massachusetts, they find their hometown significantly changed. As they navigate the rifts between their family's values and all-American culture and face the harsh realities of growing up, they must embrace both the triumphs and heartache that mark the journey to adulthood. A heartfelt, evocative portrait that "breathes with narrative magic" (Harry Yount, poet and author of *I'm Never Not Thinking of You*), *The Things We Didn't Know* establishes Elba Iris Pérez as a sensational new literary voice.

kids workbooks near me: *Casanova Was A Book Lover* John Maxwell Hamilton, 2000-04
Everyone knows which books people buy; they can just look at the best-seller lists. But who knows which books people steal? Who, for that matter, knows that authors ruin the book market by writing too much? Or why book critics are not critical? Or why librarians need to throw out more books? Who, indeed, knows the answer to that all-important question in our democracy: should presidents and presidential candidates write books? (The answer is no.) In this irreverent analysis of the book industry, John Maxwell Hamilton -- a longtime journalist and public radio commentator -- answers these questions and many more, proving that the best way to study books is not to take them too seriously. He provides a rich history of the book -- from the days when monks laboriously hand-copied texts to the tidal wave of Titanic tie-ins -- and gives a succinct overview of the state of the industry today, including writing, marketing, promoting, reviewing, ghostwriting, and collecting. Throughout, Hamilton peppers his prose with spicy tidbits of information that will fascinate bibliophiles everywhere. For instance, did you know that Walt Whitman was fired from a government job because his boss found *Leaves of Grass*, and its author, immoral? Or that the most stolen book in the United States is the Bible, followed by *The Joy of Sex*? How about that Dan Quayle's 1989 Christmas card read, May our nation continue to be a beacon of hope to the world? Or that *Casanova* was an ardent lover of books as well as women? Hamilton offers an inside look at the history and business of book reviewing, explaining why, more often than not, reviewers resemble counselors at a self-esteem camp and examining the enormous impact of the Oprah effect on the market. As the self-appointed Emily Post of the book world, he advises publishers, authors, and readers on proper etiquette for everything from book parties (Feel free to build a party around a theme in a book, no matter how tacky) and jacket photos (You should not show off your new baby unless [your] book [is] about raising kids), to book signings (Just because an author has given you an autograph does not mean they want to become your pen pal) and promotion by friends and relatives (They should carry the book at all times on public transportation with the cover showing). Both edifying and enjoyable, *Casanova Was a Book Lover* fills a Grand Canyon--sized void in the literature on literature. It is indispensable for book enthusiasts who want to know the naked truth about reading, writing, and publishing.

kids workbooks near me: Unschooling To University Judy L. Arnall, 2018-09-21 School is one option for education; homeschooling is the second, and unschooling is the third. Many parents are frustrated by the school system, perhaps because of bullying, crowded classrooms, and outdated, dull, online courses. Disengaged learners that have no say in their coerced curriculum tend to act out, tune out, or drop out. Education must change and unschooling is the fastest-growing alternative method of learning. Two decades ago, students registered with their local school based on their house address. Now, with the internet, students are borderless. Learning can occur anywhere, anytime, anyway and from anyone-including self-taught. Self-directing their education, unschoolers learn through: - Play - Projects - Reading - Volunteering - Video games - Sports - Mentorship - Travel - Life This book explores the path of 30 unschooled children who self-directed all or part of their education and were accepted by universities, colleges, and other postsecondary schools. Most have already graduated. What children need most are close relationships-parents, teachers, siblings, relatives, coaches, and mentors within a wider community, not just within an institutional school. Educational content is everywhere. Caring relationships are not. Families that embrace unschooling, do not have to choose between a quality education and a relaxed, connected family lifestyle. They can have both.

kids workbooks near me: Inventing Transgender Children and Young People Heather Brunskell-Evans, Michele Moore, 2019-10-08 The essays in this volume are written by clinicians, psychologists, sociologists, educators, parents and de-transitioners. Contributors demonstrate how 'transgender children and young people' are invented in different medical, social and political contexts: from specialist gender identity development services to lobby groups and their school resources, gender guides and workbooks; from the world of the YouTube vlogger to the consulting rooms of psychiatrists; from the pharmaceutical industry to television documentaries; and from the developmental models of psychologists to the complexities of intersex medicine. Far from just investigating how they are invented the authors demonstrate the considerable psychological and physical harms perpetrated on children and young people by transgender ideology, and offer tangible examples of where and how adults should intervene to protect them.

kids workbooks near me: Unlearning the Hush Marlee S. Bunch, 2025-10-07 Despite significant challenges and historical opposition, Black female teachers stood at the forefront of advocating for and providing education to Black students. Their dedication not only improved opportunities for Black communities but also influenced changes in U.S. laws and societal expectations. Marlee S. Bunch draws on oral histories to illuminate the interior lives of Black female educators who taught before and after desegregation in Hattiesburg, Mississippi. In their own voices, these women detail the hurdles they faced guiding students through Jim Crow laws and Civil Rights-era desegregation. Bunch unearths the personal stories of teaching and activism during a historic time that included the Brown v. Board of Education decision and whites' massive resistance to desegregation. The educators highlight the significance of the Black community and the role of Black homes in fostering student success and community cohesion. In addition, Bunch looks at the legacies of Black educators and the work still to be done. Visual artwork and poetry complement the text. Inspiring and immersive, *Unlearning the Hush* blends personal memory with Civil Rights history to document the pivotal role Black women played in education during a transformative and charged period in American history.
