workbooks women: Becoming Heart Sisters - Women's Bible Study Participant Workbook Natalie Chambers Snapp, 2017-02-21 Friendships with other women are as important to our mental, physical, and spiritual health as rest, exercise, and prayer. We don't just want friends—we need friends. God created us for relationship. Yet despite being more connected than ever before, we struggle to feel connected. From the false intimacy of social media to busyness and relational conflict, there are many challenges to developing authentic relationships. If you've ever been hurt by a friend, struggled to balance friendship with everyday life, seen a friendship end too early, or longed for deeper and more authentic friendships, this Bible study is for you. As Natalie leads you in a deep exploration of timeless truths in the Old and New Testaments, you will learn how to develop and nurture the kind of enriching and satisfying friendships that build up the body of Christ and bring honor to God. Personal testimonies and stories of successes and failures add a level of authenticity that is refreshing and insightful. As you learn to cultivate God-honoring relationships, you will become more like Christ and demonstrate His love to a broken world. Study participants will find deep study of Scripture's principles for God-honoring friendships; help for navigating conflict, setting boundaries, and learning to forgive; in-depth study of Scripture with testimonies and stories that ring true, the do's and don'ts of authentic friendships; and Bible-based guidance for building stronger and deeper relationships. The participant workbook includes five days of lessons for each week, combining study of Scripture with personal reflection, application, and prayer. Other components for the Bible study, available separately, include a Leader Guide, DVD with six 16-20 minute sessions, and boxed Leader Kit. "Becoming Heart Sisters is a beautiful reminder of how powerful walking hand in hand with a loyal friend can be. After completing this study, you will be better equipped to be this kind of God-honoring friend. Thank you, Natalie, for the charge to sacrificially love and serve our friends." —Lysa Terkeurst, New York Times best-selling author and

president of Proverbs 31 Ministries

workbooks women: Footnotes - Women's Bible Study Participant Workbook with Leader Helps Julie Lyles Carr, 2019-08-20 We hear a lot about some of the “big” names in the Bible. Moses. Mary. Paul. But what about those who have a small mention, or whose names aren’t even known? What might they have to teach us about the faith journey? Footnotes is a unique four-week study that introduces us to some people who are just a brief blip on the screen of the Bible timeline, just a footnote in biblical story—people it would be easy to overlook but we shouldn’t underestimate. As you journey through this four-week study, you will be inspired by the backstories of these people of faith who show us that even minor players can teach major lessons.

workbooks women: Emancipating the Female Sex June Edith Hahner, 1990 June E. Hahner’s pioneering work, *Emancipating the Female Sex*, offers the first comprehensive history of the struggle for women’s rights in Brazil. Based on previously undiscovered primary sources and fifteen years of research, Hahner’s study provides long-overdue recognition of the place of women in Latin American history. Hahner traces the history of Brazilian women’s fight for emancipation from its earliest manifestations in the mid-nineteenth century to the successful conclusion of the suffrage campaign in the 1930s. Drawing on interviews with surviving Brazilian suffragists and contemporary feminists as well as manuscripts and printed documents, Hahner explores the strategies and ideological positions of Brazilian feminists. In focusing on urban upper- and middle-class women, from whose ranks the leadership for change arose, she examines the relationship between feminism and social change in Brazil’s complex and highly stratified society.

workbooks women: Gender, Language and Ideology Momoko Nakamura, 2014-12-15 The book examines women’s language as an ideological construct historically created by discourse. The aim is to demonstrate, by delineating a genealogy of Japanese women’s language, that, to deconstruct and denaturalize the relationships between gender and any language, and to account for why and how they are related as they are, we must consider history, discourse and ideology. The book analyzes multiple discourse examples spanning the premodern period of the thirteenth century to the immediate post-WWII years, mostly translated into English for the first time, locating them in political, social and academic developments and describing each historical period in a manner easily accessible for those readers not familiar with Japanese history. This is the first book that describes a comprehensive development of Japanese women’s language and will greatly interest students of Japanese language, gender and language studies, linguistics, anthropology, sociology, and history, as well as women’s studies and sexuality studies.

workbooks women: The Feminine Gaze Anne Innis Dagg, 2006-01-01 Many Canadian women fiction writers have become justifiably famous. But what about women who have written non-fiction? When Anne Innis Dagg set out on a personal quest to make such non-fiction authors better known, she expected to find just a few dozen. To her delight, she unearthed 473 writers who have produced over 674 books. These women describe not only their country and its inhabitants, but a remarkable variety of other subjects: from the story of transportation to the legacy of Canadian missionary activity around the world. While most of the writers lived in what is now Canada, other authors were

British or American travellers who visited Canada throughout the years and reported on what they found here. This compendium has brief biographies of all these women, short descriptions of their books, and a comprehensive index of their books' subject matters. *The Feminine Gaze: A Canadian Compendium of Non-Fiction Women Authors and Their Books, 1836-1945* will be an invaluable research tool for women's studies and for all who wish to supplement the male gaze on Canada's past.

Allison Kavey's study traces the cultural relevance of these books and also charts their influence on the people who read them. Citing the importance of printers in choosing the books' contents, she points out how these books legitimized manipulating nature, thereby expanding cultural categories, such as masculinity, femininity, gentleman, lady, and midwife, to include the willful command of the natural world.

workbooks women: Doing Women's History in Public Heather Huyck, 2020-04-05 A complete guide to interpreting women's history. Women's history is everywhere, not only in historic house museums named for women but also in homes named for famous men, museums of every conceivable kind, forts and battlefields, even ships, mines, and in buckets. Women's history while present at every museum and historic site remains less fully interpreted in spite of decades of vibrant and expansive scholarship. *Doing Women's History in Public: A Handbook for Interpretation at Museums and Historic Sites* connects that scholarship with the tangible resources and the

sensuality that form museums and historic sites-- the objects, architecture and landscapes-- in ways that encourage visitor fascination and understanding and center interpretation on the women active in them. With numerous examples that focus on all women and girls, it appropriately includes everyone, for women intersect with every other human group. This book provides arguments, sources (written, oral, and visual), and tools for finding women's history, preserving it, and interpreting it with the public. It uses the framework of Significance (importance), Knowledge Base (research in primary, secondary, and tertiary sources), and Tangible Resources (the preserved physical embodiment of history in objects, architecture, and landscapes). Discusses traditional and technology-assisted interpretation and provides Tools to implement Doing Women's History in Public. Using a hospitality model, museums and historic sites are the locales where we assemble, learn from each other, and take our insights into a more gender-shared future.

workbooks women: *Thematic Teaching of Women's Rights Issues with Social Studies Trade Books* Jeremiah Clabough, Natalie Keefer, 2023-09-29 This edited volume presents a distinctive approach for exploring pedagogical frameworks, methods, and strategies for teaching thematically about women's rights using social studies trade books. After an introductory chapter by Jeremiah Clabough that provides a compelling rationale for thematic teaching of women's rights issues and controversial topics, Natalie Keefer and Tori Flint situate the remaining chapters within the context of theory and research on women's rights issues and include a discussion of implications and considerations for the role multiple literacies have in advancing women's rights in North America and beyond. In subsequent chapters, a diverse assemblage of respected scholars within the field of social studies education introduce important women who advanced women's human rights in the United States, paired with a notable trade book about their life, challenges, and achievements. Then, chapter authors describe student-centered pedagogies, with inquiry-based pedagogies aligned with the NCSS C3 Framework, that teachers can implement with upper elementary and middle school students to seamlessly integrate literacy and social studies for the purpose of thematically teaching about women's rights.

workbooks women: *Conceiving Agency* Michal S. Raucher, 2020-09-01 *Conceiving Agency: Reproductive Authority among Haredi Women* explores the ways Haredi Jewish women make decisions about their reproductive lives. Although they must contend with interference from doctors, rabbis, and the Israeli government, Haredi women find space for—and insist on—autonomy from them when they make decisions regarding the use of contraceptives, prenatal testing, fetal ultrasounds, and other reproductive practices. Drawing on their experiences of pregnancy, knowledge of cultural norms of reproduction, and theological beliefs, Raucher shows that Haredi women assert that they are in the best position to make decisions about reproduction. *Conceiving Agency* puts forward a new view of Haredi women acting in ways that challenge male authority and the structural hierarchies of their conservative religious tradition. Raucher asserts that Haredi women's reproductive agency is a demonstration of women's commitment to Haredi life and culture as well as an indication of how they define religious ethics.
